

Assignment 3

Name: Yazeed Alzahrani

ID: 202349310

Section : 02

Task 1:

Domain: abctech.com

|

|— OU=Marketing

| |— CN=Omar Sami Ali

| |— CN=James Kean Jones

| |— CN=Aisha Sam Omer

|

|— OU=Operations

| |— CN=Milo Nino Vera

| |— CN=Ava Neita Porter

| |— CN=Nima Noe Tai

|

|— OU=Accounting

| |— CN=Uma Marc Cares [Accounting Manager]

| |— CN=Pasha Hiche Linpa [Accounting Regular User]

|

|— OU=IT

| |— CN=Yazeed Faris [You]

| |— CN=Tom John Hank

Task 2:

#	Employee Name	Username	Display Name	Initial Password
1	Omar Sami Ali	omar.ali	Ali, Omar	Omar@2026
2	James Kean Jones	james.jones	Jones, James	James#2026
3	Aisha Sam Omer	aisha.omer	Omer, Aisha	Aisha!2026
4	Milo Nino Vera	milo.vera	Vera, Milo	Milo@2026
5	Ava Neita Porter	ava.porter	Porter, Ava	Ava#2026
6	Nima Noe Tai	nima.tai	Tai, Nima	Nima!2026
7	Uma Marc Cares	uma.cares	Cares, Uma	Uma@2026
8	Pasha Hiche Linpa	pasha.linpa	Linpa, Pasha	Pasha#2026
9	Yazeed Faris	yazeed.faris	Faris, Yazeed	Yazeed!2026
10	Tom John Hank	tom.hank	Hank, Tom	Tom@2026

Task 3:

Password Setting Policy

Setting	Value	Security Justification
Minimum password length	8 characters	Longer passwords increase resistance against brute-force and guessing attacks.
Complexity requirement	Enabled: uppercase, lowercase, number, and special character required	Complexity makes passwords harder to guess and reduces the success of dictionary attacks.
Password history	Remember last 5 passwords	Prevents users from quickly reusing old passwords.
Maximum password age	90 days	Forces periodic password changes to limit damage if a password is compromised.
Minimum password age	1 day	Prevents users from rapidly changing passwords multiple times just to return to an old password.

Account Lockout Policy

Setting	Value	Security Justification
---------	-------	------------------------

Account lockout threshold	5 invalid attempts	Blocks repeated login guessing while still allowing room for normal typing mistakes.
Lockout duration	15 minutes	Temporarily stops brute-force attempts without requiring permanent administrator intervention every time.
Reset account lockout counter after	15 minutes	Clears failed attempts after a safe period to avoid unnecessary lockouts from occasional mistakes.
Reset counter time	15 minutes	Keeps the reset timing consistent with the lockout duration and slows repeated guessing attempts.

Task 4:

Role, Group, and Membership Table

Role	Role Name	Group Name	Group Members
R1	Marketing User	GR_MKT_USERS	omar.ali, james.jones, aisha.omer
R2	Operations User	GR_OPS_USERS	milo.vera, ava.porter, nima.tai

R3	Accounting Manager	GR_ACC_MANAGERS	uma.cares
R4	Accounting User	GR_ACC_USERS	pasha.linpa
R5	IT User	GR_IT_USERS	yazeed.faris, tom.hank
R6	All Employees	GR_ALL_EMPLOYEES	omar.ali, james.jones, aisha.omer, milo.vera, ava.porter, nima.tai, uma.cares, pasha.linpa, yazeed.faris, tom.hank

Shared Folder Permission Table

Group Name	Required Resource Permission	Justification
GR_MKT_USERS	Change on \\FSRV\Marketing	Marketing users need to read, write, modify, and delete files in their department shared folder for daily work.
GR_OPS_USERS	Change on \\FSRV\Operations	Operations users need to read, write, modify, and delete files in their department shared folder for daily work.
GR_ACC_MANAGERS	Full Control on \\FSRV\Accounting	Accounting manager requires full control over the Accounting shared folder due to

		responsibility for sensitive financial data.
GR_ACC_USERS	Read Only on \\FSRV\Accounting	Regular Accounting users should only view Accounting files and should not modify or delete sensitive financial data.
GR_ALL_EMPLOYEES	Read Only on \\FSRV\Public	All employees should be able to view public company files, but not modify or delete them.
